

Badger Bimmers – Student Evaluation

Instructor's name _____

Student's name _____

Event OktoberFAST – Road America

Date 10/9 - 10/11/26

Instructor: Please rate your student on the following categories and **talk with your student** about each item. Give thoughtful feedback in order to help the student improve. Use the following ratings to indicate that the student understands the concept or level of skill development. **NOTE:** Our goal is for students to leave with more knowledge and confidence than when they arrived.

1 = Minimal – The student is just beginning to understand.

2 = Basic – The student has a basic understanding/ability, but needs more practice.

3 = Proficient – The student understands and demonstrates proficiency most of the time. 4 = Advanced – The student clearly understands, can explain the concept to the instructor, and demonstrates proficiency consistently.

Student: Please understand that not every student will receive proficient or advanced ratings on every item. These ratings are intended to help you set goals for improvement at your next event.
